

## Our Wild Adventure

We hit the world on a flying star  
I've been told it was by chance  
It took more than a little time  
To learn the steps of the dance

Intricate and beautiful  
An atomic *pas-de-deux*  
Rungs to a brighter realm  
What a climb for him and for her

It's so very unlikely  
Such a strange infection  
Seven billion and rising  
Will you share this wild adventure with me?

We could start a family  
When the lizards are in bed  
Reading books by the open fire  
The full moon filling our heads

So wrap your heart in an iron core  
And keep it safe from harm  
Hold tight to the spinning Earth  
The land and sea in our arms

It's so very unlikely  
Such a strange infection  
Seven billion and rising  
Won't you share this wild adventure with me?

We hit the world on a flying star  
I've been told it was by chance  
It took more than a little time  
To learn the steps of the dance
